

SOUTH SIDE OF THE HEART

26TH - 28TH SEPTEMBER 2018

MEET THE EXPERTS Balloon Pulmonary Angioplasty (BPA) Sessions

HOSPITAL GARCIA DE ORTA

Unidade de Cardiologia de Intervenção

26/09/2018

BPA Interventional Cardiology Experts:

Yu Taniguchi

Rita Calé

Chronic thromboembolic pulmonary hypertension (CTEPH) Experts:

Maria José Loureiro

Filipa Ferreira

Imaging Experts:

Carla Saraiva

Ana Coutinho Santos

SESSION 1.

BPA strategy for the first session

- › PEPSI Score and pressure-wire-guided BPA (*Filipa Ferreira*)
- › Differences between the old and new strategy. Expert opinion (*Yu Taniguchi*)
- › Clinical case presentation (*Fellow – Sofia Alegria*)
- › AngioCT imaging analysis to plan the procedure (*Carla Saraiva*)

SESSION 2.

BPA strategy for the final session

- › Treatment goals of BPA (*Rita Calé*)
- › Extensive revascularization by BPA beyond haemodynamic normalization: does it make sense? Expert opinion (*Yu Taniguchi*)
- › Clinical case presentation (*Fellow – Ana Marques*)
- › AngioCT imaging analysis to plan the procedure (*Carla Saraiva*)

SESSION 3.

BPA for chronic thromboembolic disease (CTD) without pulmonary hypertension at rest

- › Definition of the disease and data (*Maria José Loureiro*)
- › BPA for CTD: does it make sense? Expert opinion (*Yu Taniguchi*)
- › Clinical case presentation (*Fellow – Daniel Sebaiti*)
- › AngioCT imaging analysis to plan the procedure (*Ana Coutinho Santos*)
